<b>SIM Card</b>	\$5		
<b>Total Min Cost</b>	\$30	\$44	\$54

### Information about the service

The service provided under this plan is a mobile phone service that allows you to make and receive calls, send and receive SMS messages, and access mobile data. You can request a new number, or you can transfer an existing Australian Mobile number. You will need to provide your own mobile handset to be able to access the service, it must be compatible with the 3G 850 MHz and both 4G 1800 MHz and 4G 700 MHz network.

#### Bundling

We do not require you to bundle this plan with any other service or any equipment.

#### Minimum Term

There is no minimum term on this plan. Plan charges are payable in advance and there is no refund of any amounts if you cancel your service or transfer your number to a new provider.

#### Inclusions

Your monthly inclusions are set out in the table below. Your unused monthly inclusions expire each month.

### Exclusions and Limitations

This is a data-only plan meaning that all calls & SMS are disabled. If you wish to make standard Pay-As-You-Go calls & SMS, you will need to contact us. Click [here](#) to see rates. International roaming is disabled by default, if you would like to activate roaming you will need to contact us. Click [here](#) to see our roaming travel packs and rates.

#### Acceptable Use Policy

An Acceptable Use Policy applies to this service. You can view it here –

<https://business.mynetfone.com.au/legal>

## Information about pricing

See the above table for your plan pricing.

If you exceed your monthly data limit, or enable calling and make calls or send SMS/MMS, you'll have to pay more than your minimum monthly charge.

### Auto Data Bolt-ons

You have selected a plan with 'Auto Data', this means that we will add a 1GB data bolt-on to your plan automatically each time your data is fully depleted, this will be added up to 5 times per plan cycle. Each 1GB data bolt-on costs \$10. The maximum charge you can incur for automatic data bolt-ons is \$50 per plan cycle. After the 5<sup>th</sup> automatic data bolt-on has been depleted, data will be blocked and you can choose to purchase ad-hoc 1GB data bolt-ons if you wish.

All data will expire upon your monthly renewal date, so if for example, an automatic data bolt-on is added 4 days prior to your renewal date, you will only have 4 days to use the data and then it will expire when your plan is renewed.

## Other Information

### How we charge you

You will be required to pay the plan fee and shipping fee upfront when you place your order for a SIM card. Once you have received your SIM card and activated the service, the plan will be applied to your service and this will become your billing date.

We operate anniversary billing. This means that if you activate a service with us on days 1-28 in a given month, we will bill you on that same date each commencing month. Where your service is activated on days 29-31, we will bill you monthly on the 28<sup>th</sup> day commencing the following month. For example, if you activate your service on the 30<sup>th</sup> January, we will bill you on the 28<sup>th</sup> of each month thereafter. If you activate on days 29-31, a pro rata credit will be applied to your account for the days not used.

Your service will be automatically renewed and billed on the same day each month unless you inform us you wish to cancel your service or you transfer your number to a new provider.

Payment option is credit card only; details must be supplied during the order and we will process payments automatically on the renewal date each month.

Invoices are sent free of charge by email only. If you do not provide a valid email address you will not receive your invoice. You can access your invoice via our online portal at:

<https://activatebusiness.mynetfone.com.au>

### Changing Your Plan

You can request to change to a plan of higher or lower value, the change will take place at your next renewal date.

### Usage information

We provide you with tools to be able to check your call and data usage. You can check your usage online via our portal at:

<https://activatebusiness.mynetfone.com.au>

You'll receive automated SMS notifications when you have used 50%, 85% and 100% of your included data allowance. These SMS notifications can be up to 48 hours behind real time usage so they should only be relied upon as a guide.

We'll also send you an SMS letting you know each time an automatic 1GB Data add-on is added to your service.

### Network Coverage

The mobile product of MyNetFone provides a combined 4G and 3G coverage footprint of 98.8% and a 4G coverage footprint of 95% of the Australian population covering 1.59 million square kilometres.

You should use our coverage maps available at <http://mobilemaps.net.au/maps/mcm/4G.html> to check whether the mobile service is available at the location where you would usually use the service.
